

As we travel down the path of life, we are constantly faced with the question about which road we are going to take. All decisions have implications and Jesus said that those implications could even be as strong as the difference between life and destruction. This can be true in natural life. Decisions we make can actually lead to death as opposed to life. If everyone is jumping off the cliff and we join them, we will be destroyed. Jesus was talking about life eternal, life with God. To be with God for eternity is life, the alternative is destruction, and according to Matthew 7:13 and 14, we have the ability to make that choice.

Choosing to follow Jesus and follow His Word is not popular today. Our beliefs are under attack and scrutiny. How will we respond? We will choose a different, more acceptable path, or will we continue to seek the narrow road.

Read 1John 2:15 - 18

How do we see these warnings being played out today in our own culture? How are these verses being lived out by the Church?

Read 2 Timothy 4:3 and Luke 17:27-30

In what ways do you see these scriptures being lived out? Why is it that many people are so quick to embrace the party rather than stand up against it?

Read 1 Corinthians 6:11-12

How can we continue to seek the narrow road and not be persuaded to travel the broad road?
Where have you compromised in your own life?

Pray and ask the Lord to help you rediscover that narrow path.
